Form 2290 · amendment · what we need

When a VIN changed, the taxable weight went up, or a suspended unit went over the mileage.

What we need from you

- [ ] **Taxpayer signature** — Appointment
  Without a signature the IRS does not consider it filed. You sign at the end.
- [ ] **The Schedule 1 you are amending** — Document to upload
  The latest one stamped by the IRS.

What the order form asks

- [ ] **What changed?**
- [ ] **Company EIN**
  Asked when you pay; stored encrypted.
- [ ] **The units that change**
  One row per truck: the truck VIN (not the trailer) and its taxable gross weight (truck + trailer + usual max load). Suspended = 5,000 miles or less in the year.

How it goes

1. We review what changed

2. We prepare the amendment

3. You sign and we e-file it

4. We deliver your corrected Schedule 1
